gold medallion award winning study of christ s life as recorded in the gospels newly updated in 2009 from the original 1997 work

for the evangelists and for paul the gospel is both narrative and proclamation

in this collection of essays presented at a scholarly symposium held in 1982 in tuingen germany new testament exegetes and church historians from several countries uncover lines of convergence in the study of the historical sources and traditions behind the four canonical gospels

a robust scholarly defense of the distinctiveness of the canonical gospels do the four new testament gospels share some essence that distinguishes them from noncanonical early gospels the tendency among biblical scholars of late has been to declare the answer to this question no that matthew mark luke and john were grouped together by happenstance and are defended as canonical today despite there being no essential commonalities between them simon gathercole challenges this prevailing view and argues that in fact the theological content of the new testament gospels distinguishes them substantially from noncanonical gospels gathercole shows how the gospels of matthew mark luke and john each include four key points that also formed the core of early christian preaching and teaching jesus s identity as messiah the saving death of jesus the resurrection of jesus and scripture s foretelling of the christ event in contrast most noncanonical gospels like the gospel of thomas the gospel of truth and marcion s gospel only selectively appropriated these central concerns of early christian proclamation

the gospels and christian life reads the four canonical gospels as handbooks for religious formation through communal practices the book focuses on the communities that produced each gospel the dynamic energy each gospel displays for creating and sustaining community life the different interpretations of the person of jesus and the different systems of organization and leadership each gospel promulgated the authors carefully describe the social context of each gospel and delineate the practices the texts prescribe each gospel has an imaginative portal an introductory chapter introducing the necessary background for understanding the social intellectual and religious setting for each gospel their reading of each gospel builds on these foundations to illustrate the nature and scope of the community s practices their work starts from the assumption that the communities did not look to the gospels for biographical data on the life of jesus to offer the reader a powerful reading of each gospel community its unique practices and the way people were trained to become members of it this book is aimed at undergraduate and graduate teachers and students pastors and the general audience eager for new ways to understand the new testament

the purpose of this dictionary is to give an account of everything that relates to christ his person life work and teaching it is in a sense complementary to the dictionary of the bible in which of course christ has a great place but a dictionary of the bible being occupied mainly with things biographical historical geographical or antiquarian does not give attention to the things of christ sufficient for the needs of the preacher to whom christ is everything this is first of all a preacher s dictionary the authors of the articles have been carefully chosen from among those scholars who are or have been themselves preachers and even when the articles have the same titles as articles in the dictionary of the bible they are written by new men and from a new standpoint it is thus a work which is quite distinct from and altogether independent of the dictionary of the bible it is called a dictionary of christ and the gospels because it includes everything that the gospels contain whether directly related to christ or not its range however is far greater than that of the gospels it seeks to cover all that relates to christ throughout the bible and in the life and literature of the world there will be articles on the patristic estimate of jesus the medieval estimate the reformation and modern estimates there will be articles on christ in the jewish writings and in the muslim literature much attention has been given to modern thought whether christian or anti christian every aspect of modern life in so far as it touches or is touched by christ is described under its proper title james hastings 1852 1922 was a distinguished scholar and pastor he was founder and editor of the expository times and is also well known for editing the five volume dictionary of the bible as well as the encyclopaedia of religion and ethics the dictionary of christ and the gospels and the dictionary of the apostolic church

the discussion initiated by the gospels for all christians rethinking the gospel audiences edited by richard bauckham has had a profound effect on gospel study and has been probed and debated at major conferences as well as at an international conference on the gospel of john 2002 almost every commentary or major monograph on the gospels has had to deal with its thesis in light of this ongoing debate stretching nearly a decade it seems that a further volume is sorely needed even more there is now a pressing need for further definition and clarification of the concepts and ideas that were originally presented as well as a more precise dialogue over these hotly debated issues in gospel interpretation with scholars who have been participating in the discussion since its inception this multi contributor volume will press forward an important discussion centered upon the audience of the gospels continuing further the quest for understanding the origin and function of the gospels in early christianity

in jesus and the gospels new testament scholar craig blomberg immerses the reader in the historical and cultural world of gospel narratives for them to better understand and appreciate their focal point jesus of nazareth

this volume which collects together the work of several established scholars attempts to situate the apostle paul the pauline writings and the earliest christian gospels together in the context of early christianity it addresses the issue of how the christianity depicted in and represented by the individual gospels relates to the vision of christianity represented by paul and the pauline writings this raises such questions as to what extent did paul influence the canonical and non canonical gospels in what way are the gospels reactions to paul and his legacy a comparison of the gospels and paul on topics such as old testament law gentile mission christology and early church leadership structures represents a fruitful area of study while a number of volumes have appeared that attempt to assess the relationship between the historical jesus and the apostle paul relatively few studies on paul and the gospels have been published this volume excellently fills this gap in new testament studies and makes a valuable contribution to studies on christian origins pauline research and the gospels

book i the treatise opens with a short statement on the subject of the authority of the evangelists their number their order and the different plans of their narratives augustine then prepares for the discussion of the questions relating to their harmony by joining issue in this book with those who raise a difficulty in the circumstance that christ has left no writing of his own or who falsely allege that certain books were composed by him on the arts of magic he also meets the objections of those who in opposition to the evangelical teaching assert that the disciples of christ at once ascribe more to their master than he really was when they affirmed that he was god and inculcated what they had not been instructed in by him when they interdicted the worship of the gods against these antagonists he vindicates the teaching of the apostles by appealing to the utterances of the prophets and by showing that the god of israel was to be the sole object of worship who also although he was the only deity to whom acceptance was denied in former times by the romans and that for the very reason that he prohibited them from worshipping other gods along with himself has now in the end made the empire of rome subject to his name and among all nations has broken their idols in pieces through the preaching of the gospel as he had promised by his prophets that the event should be book ii in this book augustine undertakes an orderly examination of the gospel according to matthew on to the narrative of the supper and institutes a comparison between it and the other gospels by mark luke and john with the view of demonstrating a complete harmony between the four evangelists throughout all these sections book iii
